

Itergy Digital Workplace powered by Microsoft 365

Top Features

- **Streamlined Corporate IT Operations:** Provides a predictable cost model based on a per user, per month for Digital Workplace
- **Intelligent Security:** Safeguards your company and customer data, as well as your corporate intellectual property
- **Enhanced Productivity:** Provides a set of fully managed modern applications and services to allow teams to work together, giving people flexibility and choice in how they connect, share and communicate corporate information in a safe and secure manner

- ✓ Digital disruption is reshaping today's business landscape with new risks and opportunities. In a world of accelerated change, organizations need new solutions for collaboration and mobility. At the same time, they face rising pressure to protect not only privacy and data but also apps and devices.
- ✓ With the adoption of mobility and cloud services, data is travelling to more locations than ever before. While these services have helped users become more productive and collaborative, securing and monitoring the data has become harder.
- ✓ Itergy Digital Workplace powered by Microsoft 365 helps you effectively and efficiently address identity and security issues and safeguard apps and data on-premises, in the cloud, and across devices.
- ✓ Microsoft 365 is a complete intelligent solution, including Office 365, Windows 10, and Enterprise Mobility + Security, that empowers everyone to be creative and work together securely.

Why Itergy
