Itergy
Simplify your IT

INCREASE BUSINESS AGILITY AND USER PRODUCTIVITY BY AUTOMATING KEY BUSINESS PROCESSES WITH THE TECHNOLOGIES YOUR ALREADY OWN

Today's hybrid work reality has accelerated your need for digital transformation to help your employees collaborate and work better. Moreover, you have undoubtedly discovered broken manual processes that play a role in decreasing efficiency, business control, agility, and employee productivity. Fortunately, business process automation (BPA) has been proven to be a strategic enabler that helps address these problems and multiple others such as security risks and high operation costs.

OUR SOLUTION

Itergy can help you identify these key broken manual business to automate them while leveraging the technologies you are already using. Before engaging in any project, Itergy's always conducts an assessment to get a better understanding of where you are currently and what you would like to achieve. Our BPA assessment is designed to identify the best solution for your unique business needs, so you are ready to achieve positive, quantifiable improvements in key operating area metrics.

OUR BUSINESS PROCESS AUTOMATION ASSESSMENT INCLUDES:

- Process mapping
- Solution design
- BPA strategy, including roadmap and implementation plan

OUR PROCESS:

As your strategic partner, we work closely with you and key stakeholders to gain a comprehensive understanding of your business challenges and goals. To do so, we ask lots of questions about your current practices, uncover areas of improvement, and discover what you are trying to accomplish. We discover which technologies you are using, such as Office 365 and Active Directory, how you are currently leveraging them for your different business processes. Once we have identified your business needs, we design a solution including the right mix of technologies needed to help you get there, and give you a clear vision of what should be done. We build our BPA solutions with the goal of automating through these technologies you are already using therefore maximizing your investments. Finally, we present a strategy including the roadmap and implementation plan.

ITERGY'S BPA SOLUTION BENEFITS

- Increase end user productivity and efficiency
- Improve collaboration between end user roles and locations
- Automate repetitive tasks
- Monitor processes to identify and resolve bottlenecks and delays
- Connect to and integrate data sources and services that save you time
- Enable and accelerate your digital transformation initiatives
- Reduce operational costs
- Enjoy a higher ROI from your Office 365 investment

SCOPE OF WORK

Depending on the scope of your automation needs, the assessment can be completed in as little as 7 business days and for the minimal cost of $10 000. Once we've completed your assessment and have the right solution in place, Itergy will also be the go-to expert to implement your BPA strategy.

Contact us today and find out how we can help you build great solutions!

"ITERGY KNOWS WHAT THEY ARE TALKING ABOUT. THEY KNOW WHAT IS POSSIBLE AND WHAT THE LIMITATIONS ARE. PAIRING THE MICROSOFT ROADMAP WITH A TEAM THAT UNDERSTANDS IT AND CAN ADAPT TO IT IS VERY VALUABLE."

Alan Zych, Director, Mobile and Web Applications – FLYNN

"WE WERE PUTTING OUT FLAMES, BUT NOT THE SOURCE OF THE FIRE, AND SOMETIMES WE DIDN'T EVEN HAVE A FIREFIGHTER. IT TAKES A METHODICAL APPROACH, THAT OF A DEVELOPER, TO FIND THE SOURCE OF THE PROBLEM AND CORRECT IT. ITERGY IS A BAND OF FANATICS."

Agis Grigoriadis, Senior Director, IT – Sollio Group

WHY ITERGY?

AT ITERGY, WE SOLVE BUSINESS PROBLEMS

We have helped companies solve their business challenges for 20 years, leveraging Microsoft technologies, and have been recognized by Gartner in 18 articles.
